(c) whether it is also a fact that the ship breaking units are not aE?e to utilise even half of the capacity because of rationing;

(d) if sC| what are the details of the average capacity of each of the units and $th_e$ imported scrap ships proposed to be supplied to each of them for the year 1985-86; and

(e) what steps have been taken by Government 10 increase the supply of scrap ships to these units?

THE MINISTER OF STATE IN THE DEPARTMENT OF STEEL (SHRI K. NATWAR SINGH): (a) to (d) To en sure equitable distribution of imported scrap vessels it has been decided that MSTC would allocate approximately equal tonnage to all shopbreaking units in the country. On the basis of anticipated im ports during the current year this would work out to an average allotment of about 5000 LDTs per unit as against the average capacity of a little more than 9000 LDTs of units registered with MSTC, This would mean an average capacity utilisation of more than 50 per cent.

(e) $Th_e$ quantity of imported ships is determined by the gap in the demand for and availability of rerollables from, various sources for production of bars and rods in the country. The quantity planned for import during the current year is double the tonnage actually imported during the year 1984-85.

**Board for Industrial and Financial Reconstruction**

2340. SHRl R. SAMBASIVA RAO: Will the Minister of FINANCE be pleased to state:

(a) whether there is any proposal under Government's consideration to set up a Board for Industrial and Financial Re-construction; and

(b) if &o, what $ar_e$ the details in this regard?
